Many IT organizations have spent the past few decades building tools and processes for supporting Windows, and are now asked to support the Mac as well.

In our live webinar, **Mac in a Windows World**, we'll show you how to use the Casper Suite to deploy, manage, and support the Mac by integrating with your Windows IT infrastructure.

You'll learn about:

- Binding Mac to Active Directory (AD)
- Mac management using AD groups and the Casper Suite
- Integrating Casper Suite and Microsoft SCCM

Join us April 2, 2:00-2:30 p.m. CDT as Tad Johnson shows us how easy it is to manage Mac in the enterprise with the Casper Suite. Register today!
